Software Project Management

Assignment 03 — Quality, Change, Procurement & Closure

Project Title

Cloud-Based Student Assignment Submission and Management System

Group Information

Name	Roll No	Email
Uzair Ahmad	913	ozyr.uc@gmail.com
Fayaz Ahmad	924	fayazahmaddev@gmail.com

Part A — Requirements & Quality Plan

1. Functional Requirements

ID	Functional Requirement
FR-1	Students shall be able to upload assignments through the system.
FR-2	Teachers shall be able to review and grade submitted assignments.
FR-3	The system shall send deadline notifications to students.

2. Non-Functional Requirements

ID	Non-Functional Requirement
NFR-1	The system should be available 99% of the time.
NFR-2	The system response time should not exceed 3 seconds.
NFR-3	User data must be protected using secure authentication mechanisms.

3. Quality Objectives

Quality Objective	Description
Reliability	Ensure stable and error-free assignment submission and grading.
Security	Protect user data and prevent unauthorized system access.

4. Quality Metrics

Metric	Measurement
System Uptime	Maintain at least 99% availability
Bug Density	Fewer than 5 critical bugs before deployment

Part B — Change Management

Change Request 1

Item	Details
Change Request ID	CR-01
Requested Change	Add assignment resubmission feature
Reason for Change	Students may need correction opportunities
Impact on Time	Development time increases by 4 days
Impact on Cost	Additional development/testing cost
Impact on Scope	Scope expands slightly
Decision	Approved

Change Request 2

Item	Details
Change Request ID	CR-02
Requested Change	Add live chat support feature
Reason for Change	Improve student-teacher communication
Impact on Time	Increases project duration significantly
Impact on Cost	Requires additional infrastructure
Impact on Scope	Major scope expansion
Decision	Rejected

Part C — Procurement & Outsourcing

1. External Procurement Items

Item/Service	Purpose	Estimated Cost	Decision
Cloud Hosting Service	Host the application online	\$100/year	Outsource
Domain Name	Public website access	\$15/year	Outsource
UI Design Templates	Improve user interface	\$30	Outsource
Database Setup	Database deployment support	\$50	In-house
System Development	Core software development	Team effort	In-house

2. Procurement Decisions

Outsourced Items

- Cloud hosting
- Domain registration
- UI templates

These are outsourced because external providers offer reliable and cost-effective solutions.

In-House Items

- System design
- Backend development
- Database logic
- Testing

These are kept in-house because they are core parts of the project.

3. Suitable Contract Type

Fixed Price Contract

A fixed price contract is suitable because:

- Project requirements are mostly predefined
- Budget control becomes easier
- Cost risks are reduced
- Small academic projects require predictable expenses

Part D — Project Closure & Handover

1. Project Closure Summary

The Cloud-Based Student Assignment Submission and Management System was successfully completed according to the planned scope and objectives. The system allows students to submit assignments online while enabling instructors to review, grade, and manage submissions efficiently. Testing and deployment activities were completed successfully, and all major project deliverables were finalized.

2. Lessons Learned

No	Lesson Learned
1	Early requirement clarification reduces development delays.
2	Regular communication improves team coordination.
3	Frequent testing helps detect issues before final deployment.

3. Handover Checklist

Item	Status
Source code delivered	✓ Completed
System documentation submitted	✓ Completed
User manual provided	✓ Completed
Testing completed	✓ Completed
Deployment completed	✓ Completed
Client training provided	✓ Completed

4. Client Sign-Off Template

Client Acceptance Form

Item	Details
Project Name	Cloud-Based Student Assignment Submission and Management System
Client Name	_____
Project Manager	_____
Submission Date	_____

Acceptance Statement

I confirm that the project deliverables have been reviewed and accepted according to the agreed requirements and scope.
